

GitHub Practice File

Student Name: **Your Name Here Lindsay Rosado**

Date: **[Today's Date] 9/9/2025**

Class: **[Your Class] period 2**

=====

===== WELCOME TO YOUR FIRST GITHUB
UPLOAD!

This is a practice file for learning how to use GitHub. You will be uploading this file to your very first repository!

YOUR TASKS:

1. Edit this file by adding your name above
 2. Add today's date
 3. Add your class name
 4. Save the file
 5. Upload it to your GitHub repository
 6. Celebrate your first GitHub upload!
-

FUN FACTS ABOUT GITHUB:

• GitHub has over 100 million developers worldwide • The GitHub mascot is called "Octocat" • Microsoft acquired GitHub in 2018 for \$7.5 billion • GitHub hosts code for millions of open-source projects • Many famous projects like Linux, React, and TensorFlow are on GitHub

GITHUB TIPS FOR BEGINNERS:

1. Always write descriptive commit messages
 2. Update your README file to explain your project
 3. Use branches for experimenting with new features
 4. Don't be afraid to explore other people's code
 5. Contributing to open source is a great way to learn!
-

WRITE YOUR THOUGHTS:

What do you want to build with GitHub? (Write your answer below)

[Your answer here]

I want to build a website to make money

CHECKLIST:

☐ Created GitHub account ☐ Created first repository ☐ Uploaded this file ☐ Added a commit message ☐ Shared repository link with teacher ☐ Explored at least one other repository

=====

===== 🌟 CONGRATULATIONS! You're now
part of the global developer community!

Remember: Every expert was once a beginner.
Keep learning and coding!
